PROFESSIONAL SUMMARY

Computer Engineering graduate with production blockchain smart contract experience. Delivered security-audited Solidity contracts for international cryptocurrency project including ERC-20 tokens, presale, and staking functionality that passed CertiK audit. Strong foundation in Java/Spring Boot backend and React frontend development. Remote-ready with experience collaborating across 5+ countries. Active learner with 41+ GitHub repositories and 150+ competitive programming solutions.

TECHNICAL SKILLS

Blockchain: Solidity, Ethereum, Web3.js, ERC-20, Smart Contract Security, DeFi	Backend: Java, Spring Boot, Node.js, Express.js, Hibernate, REST APIs, JWT
Frontend: React.js, JavaScript, TypeScript, HTML/CSS, Tailwind CSS	Database: MySQL, PostgreSQL, MongoDB
Tools: Git, GitHub, Postman, VS Code, Hardhat, Remix, Slither	Other: Payment Integration, Microservices, Agile, Problem Solving

PROFESSIONAL EXPERIENCE

Solidity Developer (Contract) GrowForce FZCO Dubai, UAE (Remote) <ul style="list-style-type: none">Developed and tested smart contracts for \$ESCROW cryptocurrency including presale and staking mechanismsCollaborated with international security auditors (CertiK) to prepare contracts for professional security auditImplemented ERC-20 token standards with gas-optimized code achieving 15% efficiency improvementCoordinated with international team across 5+ countries using async communication (Slack, GitHub)	Oct 2025 – Dec 2025
Java Full Stack Intern Zidio Development Remote <ul style="list-style-type: none">Built REST APIs using Java, Spring Boot, and MySQL in agile development environmentDeveloped full-stack solutions with React.js frontend and Spring Boot backendIntegrated payment gateway APIs (Cashfree) and explored blockchain payment solutions	Jan 2025 – Apr 2025
Java Backend Intern Qspider Ahmedabad, India <ul style="list-style-type: none">Developed backend services with Java, Spring Boot, Hibernate, and MySQLOptimized database queries improving application response time by 25%Participated in code reviews and resolved critical bugs during testing phases	Jan 2025 – May 2025

PROJECTS

Ethereum Todo DApp Decentralized todo app with Solidity smart contracts and Web3.js frontend integration	DEX Backend Decentralized exchange with token swapping and asset trading functionality
Food Delivery Backend REST API with Spring Boot, MySQL featuring auth, orders, restaurant database	Payment Integration Cashfree payment gateway with secure transaction handling

EDUCATION

B.E. Computer Engineering — Ahmedabad Institute of Technology, Gujarat	CGPA: 7.5/10 Aug 2021 – Apr 2025
